fastener

(independent of the direction of rotation)

- inside
(standard)
- outside
(300220-E)

Sandwich-Base (mounted under the base board) (300790-E), [£ 365,00]

Useful in the following situations:

- with very sporty shaped car seats, in order to compensate for the recess there. This results in a more stable position and more freedom of movement when using the swivel adapter.
- with car Isofix brackets that are very far inside to allow nevertheless contact with the car's backrest and the KIDSFLEX (the ISOFIX adapter sits in the sandwich base)
- approx. 1.5 kg additional weight
